

Hello to the most wonderful eatery in existence any place in the universe. 🍷❤❤❤

My husband & I went there through a recommendation from a friend, Dale Moles. We had the most delicious meal and have returned several times. Our last visit was with our grand daughter & her husband. They were justifiably impressed. Our waitress (as usual) was a sweet young lady, Brandi. Unfortunately, we are moving to Idaho in January and wish there was some way we could take you with us, creek and all. We have recommended your place to everyone we meet (yes, strangers, too). I know some people think I am crazy when I go up to them & ask "Have you ever been to the Amis Mill Eatery in Rogersville?" Then I tell them all about how great the service and FOOD is and give them a history that I printed off my computer.

Sorry this is so long but when I get to talking about the Mill, I just can't stop. Thank you for being here.
